PAUL KENNETH KENT

Bicester, United Kingdom | **pkennethkent@gmail.com**

I've worked in multiple technical roles gaining a wealth of experience. My passion is software development where I've contributed value across the stack. I believe I am natural leader who is able to step into leadership roles when required.

EXPERIENCE

SOFTWARE ENGINEER | DIFFBLUE | NOVEMBER 2017 – NOVEMBER 2018

Built and maintained internal product dashboard systems that analysed the results of our AI driven test generation software.

DEVELOPMENT TEAM LEAD | DIFFBLUE | NOVEMBER 2018 – JUNE 2020

Expanding on my previous role I was tasked with leading a team of developers to build a pipleline that analysed 1000s of open repositories. The aim was to gather feedback on the quality of the tests produced.

SOFTWARE ENGINEER | VENTURE HARBOUR | JUNE 2020 – SEPTEMBER 2022

I joined an exciting team of engineers with aim to plan, build and maintain multiple ventures at a rapid pace. As the team was small, we worked on all area of the technical stack with my primary focus on backend system - postgres, api, oauth and graphql

LEAD ENGINEER | VENTURE HARBOUR | SEPTEMBER 2022 – JANUARY 2023

I became a Lead Engineer to work on our most ambitious venture (truenorth.io). I worked closely with the product team and my team of engineers to deliver a highly polished product.
